**Writing an Academic Paper in English** Adrian Wallwork 2022-07-27 This book is for university students, with at least a mid-intermediate level of English. It can be used as part of an English for Academic Purposes (EAP) course, either alone or with the companion volume Giving an Academic Presentation in English. The chapters are independent so that EAP teachers and students can choose those sections that best fit their needs. This means that a course can range from a minimum of 20 hours, up to 60 hours or more. There is an introductory chapter that includes what role academics play in today’s world, where success is not just measured in terms of paper output but also involvement in interdisciplinary projects and supporting society at large. Each chapter covers a particular section of a paper (Abstract, Introduction, Methods etc) and begins with a discussion exercise on what the exact purpose of each section is. This purpose is also highlighted by comparisons with non-academic situations where similar skills are required. There are many examples and templates - none of which are lengthy or complex - but which are designed to highlight key points. Students learn what style to adopt (we vs impersonal), the correct tenses to use in each section, typical mistakes, and useful phrases. The course is highly practical and is also designed to be fun to use. Other books in the series: Giving an Academic Presentation in English Essential English Grammar and Communication Strategies Adrian Wallwork is the author of more than 40 ELT and EAP textbooks. He has trained several thousand PhD students and researchers from around 50 countries to write research papers and give presentations. He is also the co-founder of e4ac.com, an editing agency for non-native English-speaking researchers.

**Kill the Messenger** Nick Schou 2009-04-28 Soon to be a major motion picture! Kill the Messenger tells the story of the tragic death of Gary Webb, the controversial newspaper reporter who committed suicide in December 2004. Webb is the former San Jose Mercury News reporter whose 1996 "Dark Alliance" series on the so-called CIA-crack cocaine connection created a firestorm of controversy and led to his resignation from the paper amid escalating attacks on his work by the mainstream media. Author and investigative journalist Nick Schou published numerous articles on the controversy and was the only reporter to significantly advance Webb's stories. Drawing on exhaustive research and highly personal interviews with Webb's family, colleagues, supporters and critics, this book argues convincingly that Webb's editors betrayed him, despite mounting evidence that his stories were correct. Kill the Messenger examines the "Dark Alliance" controversy, what it says about the current state of journalism in America, and how it led Webb to ultimately take his own life. Webb's widow, Susan Bell, remains an ardent defender of her ex-husband. By combining her story with a probing examination of the one of the most important media scandals in recent memory, this book provides a gripping view of one of the greatest tragedies in the annals of investigative journalism.

**Wittenberg; An American College** William A. Kinnison 2008-09-23 "Half of all the colleges founded before the Civil War did not survive. Wittenberg did. This is the story of a college on the Ohio frontier that sought to Americanize millions of German immigrants and to Americanize the German Lutheran Church. In spite of that, Wittenberg was caught in the anti-foreign prejudice of "Nativists" who feared the influence of immigrants on American institutions. The school prospered after the Civil War as America embraced German culture from classical music to the Christmas tree. The school again faced prejudice in the anti-German furor of World War I. Simultaneously, this is the story of students and faculty coping with the pressures of a nation going from the poverty of the rural frontier to the wealth of an urban-industrial society and how they and Wittenberg changed."

**Minority Student Retention** Alan Seidman 2019-01-31 Student retention continues to be a vexing problem for all colleges and universities. In spite of the money spent on creating programs and services to help retain students until they achieve their academic and personal goals, and graduate, the figures have not improved over time. This is particularly true for minority students, who have a greater attrition rate than majority students. Demographic information shows that the minority population in the United States is growing at a faster rate than the majority. It is imperative that educational institutions find ways to help improve retention rates for all students but particularly minority students. Retention rates should not differ appreciably among different racial/ethnic groups."The Journal of College Student Retention: Research, Theory and Practice" is the only scholarly, peer-reviewed journal devoted solely to college student retention. It has published many articles on minority student retention, and this topic continues to garner much attention. This book is a compilation of the very best of these articles, selected on the basis of reviews by a cadre of experts in the education field. The articles discuss African American, Latino/Latina, Asian and Asian Pacific, Native American, and biracial students, and institutional commitments to retaining a diverse student population. For those interested in this vital area, the collection will teach and inspire them to achieve greater heights and pay additional attention to retaining minority students in our colleges and universities.
