The Chapter 1, Humanistic Social Work - The Third Way in Social Work Theory and Practice, is devoted to present, theoretically, the concept, doctrine and specific of humanistic social work, with emphasis on its main sources, values, theories, practices and methods, to circumscribe, philosophically and doctrinally, Humanistic Social Work as the third way, alongside Traditional/ Conventional Social Work and Radical/ Critical Social Work, in the contemporary social work practice and theory, with the assumed claim to imposing even as dominant in the future. To this end, his qualities represents essential personal-professional resources that can facilitate the change, that can humanize the troubled social relationships, the dehumanized, dysfunctional microcommunity, This new environment will impose, *Der Marshmallow-Effekt* Walter Mischel 2015-03-09 Wie Willensstärke unsere Persönlichkeit prägt Es ist das wohl berühmteste Experiment in der Geschichte der Psychologie: Ein Kind bekommt einen Marshmallow vorgesetzt und hat die Wahl – sofort aufessen oder warten, um später zwei zu bekommen? Wird es zögern oder zugreifen? Und was bedeutet diese Entscheidung für sein späteres Leben? Walter Mischel, weltbekannter Psychologe und Erfinder des Marshmallow-Tests, zeigt in seinem Buch, wie Selbstdisziplin unsere Persönlichkeit prägt – und wie sie uns, in gesundem Maße, hilft, unser Leben zu meistern. Als Mischel vor mehr als vierzig Jahren vier- bis sechsjährige Kinder zum Marshmallow-Test bat, wollte er herausfinden, wie Menschen auf Verlockungen reagieren. Eher durch Zufall entdeckte er, dass die Fähigkeit der Kinder zum Belohnungsaufschub beeinflusste, wie sie später ihr Leben meistern würden. Je besser es ihnen gelang, sich zu beherrschen, desto eher entwickelten sie Selbstvertrauen, Stressresistenz und soziale Kompetenz. Wie aber kommt es, dass manche Menschen offenbar über stärkere Willenskraft verfügen als andere? Und, noch wichtiger: Ist diese Fähigkeit genetisch veranlagt oder kann man sie lernen? Walter Mischel beschäftigt sich seit mehr als vierzig Jahren mit diesen Fragen – im vorliegenden Buch präsentiert er seine faszinierenden Erkenntnisse zum ersten Mal der breiten Öffentlichkeit.

**The Humanistic Approach in Psychology & Psychotherapy, Sociology & Social Work, Pedagogy & Education, Management and Art:** Petru Stefanoi 2012-12-30 In this book is realized a brief presentation of the main orientations and features of the Humanistic Theory and Method in the major socio-human sciences, domains and practices. As construction, structure and content this book cumulates, incorporates, synthesizes and develops in a new, original and unitary work a number of the author's previous works consecrated to the humanistic approach and method in some socio-human sciences and practices, especially in Psychology and Psychotherapy, Sociology, Social Work, Education and Management, published up to the end of 2012, both in print and electronic format. In the process of realization of this works, including of this book, was taken into consideration and was consulted the universal "social" and "therapeutic" literature of humanistic orientation, with the two main directions – existential/positive and spiritual/ontological/humanitarian, or the one that describes it or refers to it. Essentially, the Existential/Positive Orientations represent and approach, in theory or practice (therapy, education, social work etc.), the Person and Personality through traits (objectives) like high level of personal and social autonomy, free will and high capacity/ ability for self-determination, high level of personal development, high resilience, high capacity to control the emotions, high degree of awareness, self-knowledge, high self-esteem, high level of interpersonal development, adaptability, mature personality, activism and initiative, assertiveness, etc., while the Socio-Human (Micro-)Community is represented through features such as high autonomy, strong organizational culture, high socio-human functionality, high cohesion, unity, solidity, adaptability, resilience, resistance to crisis and challenges, good management, etc. The Ontological/Spiritual Approaches/Theories promote core concepts (and objectives of the intervention) such as spiritual-humane personality and humane/good community, spiritual-humane development of the person and humane-cultural development of the community. These paradigms highlight and promote Personality traits and qualities such as spirituality, virtue, humanness, altruism, empathy, love, faith, etc. Regarding the theoretical representation of the Community these approaches/theories highlight ideas and features as people-centered community, the dominance of the inter-personal relationships of attachment, love, respect, the dominance of the practices and customs of mutual helps, social/group/community solidarity, harmony, unity, inter-personal congruency, socio-human, inter-personal, community functionality, socio-human, moral and cultural integration/cohesion. \*\*\* Regarding the destination of this paper, its design, content and bibliography are made in such a way to be useful both to the academic community, to students and teachers, and also to the professional community, to psychotherapists, educators, managers, social workers, artists, etc.

**THE ILLUSION OF THE CYBER INTELLIGENCE ERA** Fadi Abu Zuhri 2019-02-21 This is book is the result of my two academic interests. On a professional level I have too often found that there is a lot of misleading information being dished out on the reasons behind some of the most high profile cyber attacks. Both the media and the so called security experts end up in a blame game without factual evidence or a clear understanding of what lies behind the obvious. My research focuses on proposing a model for Cyber Criminal Psychology & Profiling that incorporates multiple intelligence, Interviewing Techniques, Cyber Criminal Psychology, Cyber forensics and Offender Profiling. The traditional model of offender profiling does not incorporate the human side of the profiler nor the offender. A better profile of a Cyber-Criminal will help in speeding up the investigation process and ensuring better identification of the Cyber-Criminal. On a personal level, especially after going through a traumatic cancer struggle, I have found that people around me are missing vital things in life. Some out of ignorance and some out of misinterpretation of facts. The book is a collection of 31 articles, which took almost three years of constant effort. The book is split into five chapters, each representing a unique theme, each with multiple articles of interest. Chapter 1 focuses on Cyber Forensics, Chapter 2 on Profiling, Chapter 3 on Interview Techniques, Chapter 4 on Forensics Psychology

and Chapter 5 on Multiple Intelligences. Although the chapters are in a certain order, each article can be read on its own in any order. The one thing I learnt in preparing the articles is how valuable knowledge of the self and surroundings are in figuring out better solutions for oneself and in the workplace. I hope you enjoy reading these articles as much as I enjoyed writing them. I also hope you find them useful.

**Research Anthology on Combating Cyber-Aggression and Online Negativity** Management Association, Information Resources 2022-03-04 The advent of the internet and social media were landmarks in furthering communication technologies. Through social media websites, families, friends, and communities could connect in a way never seen. Though these websites are helpful tools in facilitating positive interaction, they have also allowed users to verbally attack and bully each other with no fear of repercussion. Moreover, online predators will often use these tools to harass, stalk, and in some cases even lure their victims. Particularly rampant among adolescents, these harmful actions must be mitigated in order to safeguard the mental health and physical safety of users. The Research Anthology on Combating Cyber-Aggression and Online Negativity discusses the research behind cyber-aggression and cyber bullying, as well as methods to predict and prevent online negativity. It presents policy, technological, and human intervention practices against cyber-aggression. Covering topics such as media literacy, demographic variables, and workplace cyberbullying, this major reference work is a critical resource for students and educators of higher education, libraries, social media administrators, government organizations, K-12 teachers, computer scientists, sociologists, psychologists, human resource managers, researchers, and academicians.
