The Cave Liam Cochrane 2018-12-01 Twelve lost boys, their coach, and the heroes who rescued them. When the 12 young members of the Wild Boars soccer club walked into a Thai cave with their coach, they expected to be out by nightfall. A birthday cake waited in the fridge for one boy, another boy had a tutoring class. They had rope and torches but no food. Then a sudden monsoonal downpour flooded their route out. They were trapped - imprisoned in a cave said to be haunted by a mythical broken-hearted princess. So began the greatest search-and-rescue mission in living memory. People from across Thailand, and soon from across the world, joined hands to find the boys and get them out. ABC foreign correspondent Liam Cochrane was on the ground as the dramatic events unfolded. Using his local knowledge, and working with a team of Thai researchers, he puts us at the centre of the story, witnessing the boys' agonising wait, the divers' battle against muddy torrents, the race to pump out flooded caves, the secret drilling plans. With unrivalled access, he reveals fresh details about the boys' time inside the cave and gives an exclusive account of the rescue from lead diver John Volanthen. Amidst the hope, there are tensions, tragedy and powerful players guiding the rescue. But most of all, this is the inspirational story of an amazing group of boys and what can be achieved when the world unites.

Cave Ralph Crane 2015-04-15 Shortlisted for the Tratman Award 2015 To enter caves is to venture beyond the realm of the everyday. From huge vaulted caverns to impassable, water-filled passages; from the karst topography of Guilin in China to the lava tubes of Hawaii; from tiny remote pilgrimage sites to massive tourism enterprises, caves are places of mystery. Dark spaces that remain largely unexplored, caves are astonishing wonders of nature and habitats for exotic flora and fauna. This book investigates the natural and cultural history of caves and considers the roles caves have played in the human imagination and experience of the natural world. It explores the long history of the human fascination with caves, across countries and continents, examining their dual role as spaces of both wonder and fear. It tells the tales of the adventurers who pioneered the science of caves and those of the explorers and cave-divers still searching for new, unmapped routes deep into the earth. This book explores the lure of the subterranean world by examining caving and cave tourism and by looking to the mythology, literature, and art of caves. This lavishly illustrated book will appeal to general readers and experts alike interested in the ecology and use of caves, or the extraordinary artistic responses earth's dark recesses have evoked over the centuries.

Hordes Leon De Kock 2012-05-11 A story that could come true tomorrow When Ishmael Jacobson creates a virus that stops the ageing process in humans and animals alike, chaos could be the only result. Striving towards a dream of eternal life, everybody do what they can to get infected with the virus, even if it means breaking the law. It is up to detective Lindique to try to stop the spread of the virus, but is it too late? Soon the world is filled with people, and every day more and more are born. The ground turns barren, too tired to keep on giving life to billions upon billions of humans who are trying to scrape another morsel of food out of the dust. When there is no more food to eat, there is always the neighbour... In the end, there is only one person who can start the ageing process in humans again, and it is the person who started the whole problem to begin with, coming full circle.

Ecology of Kalimantan Kathy MacKinnon 2013-02-05 The Ecology of Kalimantan is a comprehensive ecological survey of one of Indonesia's largest and most diverse islands. This book presents a complete summary of our current scientific knowledge about Borneo including the rainforest and riverine habitats that are endangered by logging and industrial development, along with a discussion of land use patterns and current problems. Kalimantan is the Indonesian portion of the huge island of Borneo. Kalimantan has played a key role in Indonesia's economic development and is a major earner of foreign revenue due to the island's rich natural resources: forests, oil, gas, coal, and other minerals. In this book the authors argue that Kalimantan can be developed, but within tight ecological constraints and with great care. This book remains a standard reference for scientists, anthropologists, writers, and anyone interested in the region.

Enchantment and Despair Calvin Wall Redekop 2016-01-14 Deadly drought, near fatal accidents, blizzards, grasshopper plagues, choking dust storms, endless days of relentless toil for measly crop yields enchanting big skies, an endless undulating prairie, the spine-tingling cry of midnight coyotes, the self-satisfaction of scratching sustenance from the earth ... This is the Montana of Calvin Wall Redekop's childhood, a place at once what the neighbors labeled "the most awful forsaken place God had ever created" and a magical world for a wide-eyed boy. These background forces of hardship and wonder constituted Redekop's earliest memories and in the retrospective vision of these remembrances he finds the subtle basis for his subsequent personal development and orientation. The mutual interdependence in the homesteading community encountered in Enchantment and Despair: A Montana Childhood 1925 – 1937 helped Redekop see the significance and power of cooperative human ventures, and recognize the importance of the environment in human survival: awareness the author has acted upon throughout his life. Readers will be transported back in time by this vivid account of another age and, like its author, pass through despair to find themselves enchanted.

Sea Birds TOM STRATTON 2005-09-30 We never know how events affect our lives. In Sea Birds, events that seem to be totally unrelated gradually draw several lives together in the tropical paradise of the U.S. Virgin Islands. Sea Birds describes in a series of stories how the personal relationships of the people involved develop. Even in paradise, there is crime, greed, love, hate, and passion leading to an ultimate new beginning Anjanette was abandoned as a child of mixed heritage. She now, as an adult, operates the Arawak Eco-Camp with the goal of preserving the Caribbean land where it is located and providing educational opportunities for those interested in learning about the Virgin Islands land and the sea around them. Unfortunately, her land is a magnet for people more interested in exploiting the islands than in preserving them. Sea Birds describes the struggles of Anjanette and her friends to save the Eco-Camp from development as a resort hotel and casino. During this time, she learns much about her family, her husband, and her friends, culminating with an unexpected ending. Comments from readers: I completed the book with tears of happiness streaming down my face. A frequent visitor to the Virgin Islands. I could vividly paint the characters as I went along. A serious book collector.

The Cave José Saramago 2002 Cipriano Algor, an ageing potter, lives with his daughter in the shadow of the Centre, a nebulous megaplex that provides his livelihood - until it haughtily decrees it is no longer interested in his humble wares. In despair, he goes to visit his wife's grave, encountering there a widowed neighbour, Isaura. But his daughter is not ready to give up on him yet. Together, hopefully, father and daughter craft a new line of small ceramic figurines; to their astonishment, the Centre orders vast quantities. But once the figures are complete, the Centre backtracks: there is no market for them. Defeated once again, he returns to his village, where Isaura awaits him. THE CAVE is further indication that Saramago is one of the world's greatest novelists, a master allegorist and storyteller.

The Kingdom and the Cave Joan Aiken 2015-11-05 FROM THE AUTHOR OF THE WOLVES OF WILLOUGHBY CHASE 'She was a literary treasure, and her books will continue to delight for years to come' PHILIP PULLMAN 'Witty and endlessly inventive' CHRIS RIDDELL 'The Under People. They live in a huge Cave. They are thought to be boring upwards. Giant worms and flying ants. Underground magic.' Mickle, the palace cat, knows the kingdom is in danger. He can feel it in his whiskers and he has found a mysterious note in the royal library... (Yes, of course he can read, and speak - if he chooses to!) Mickle can't trust the King and Queen with his mission, so he and Prince Michael, with the help of their animal friends (and quite a bit of magic!), set out on a perilous quest to find the sinister Under People, discover their secret power and save the Kingdom of Astalon. In her first novel, written when she was only a teenager, Joan Aiken showcases the imagination, wit and storytelling zest that would lead to classics like Arabel's Raven and The Wolves of Willoughby Chase.

Writings on Music, 1965-2000 Steve Reich 2002-04-11 In the mid-1960s, Steve Reich radically renewed the musical landscape with a back-to-basics sound that came to be called Minimalism. These early works, characterized by a relentless pulse and static harmony, focused single-mindedly on the process of gradual rhythmic change. Throughout his career, Reich has continued to reinvigorate the music world, drawing from a wide array of classical, popular, sacred, and non-western idioms. His works reflect the steady evolution of an original musical mind. Writings on Music documents the creative journey of this thoughtful, groundbreaking composer. These 64 short pieces include Reich's 1968 essay "Music as a Gradual Process," widely considered one of the most influential pieces of music theory in the second half of the 20th century. Subsequent essays, articles, and interviews treat Reich's early work with tape and phase shifting, showing its development into more recent work with speech melody and instrumental music. Other essays recount his exposure to non-western music -- African drumming, Balinese gamelan, Hebrew cantillation -- and the influence of these musics as structures and not as sounds. The writings include Reich's reactions to and appreciations of the works of his contemporaries (John Cage, Luciano Berio, Morton Feldman, Gyorgy Ligeti) and older influences (Kurt Weill, Schoenberg). Each major work of the composer's career is also explored through notes written for performances and recordings. Paul Hillier, himself a respected figure in the early music and new music worlds, has revisited these texts, working with the author to clarify their central narrative: the aesthetic and intellectual development of an influential composer. For long-time listeners and young musicians recently introduced to his work, this book provides an opportunity to get to know Reich's music in greater depth and perspective.

Attack Surface Cory Doctorow 2020-10-13 Cory Doctorow's Attack Surface is a standalone novel set in the world of New York Times bestsellers Little Brother and Homeland. Most days, Masha Maximow was sure she'd chosen the winning side. In her day job as a counterterrorism wizard for an transnational cybersecurity firm, she made the hacks that allowed repressive regimes to spy on dissidents, and manipulate their every move. The perks were fantastic, and the pay was obscene. Just for fun, and to piss off her masters, Masha sometimes used her mad skills to help those same troublemakers evade detection, if their cause was just. It was a dangerous game and a hell of a rush. But seriously

self-destructive. And unsustainable. When her targets were strangers in faraway police states, it was easy to compartmentalize, to ignore the collateral damage of murder, rape, and torture. But when it hits close to home, and the hacks and exploits she's devised are directed at her friends and family--including boy wonder Marcus Yallow, her old crush and archrival, and his entourage of naïve idealists--Masha realizes she has to choose. And whatever choice she makes, someone is going to get hurt. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Cave and the Light Arthur Herman 2014-06-03 The definitive sequel to New York Times bestseller How the Scots Invented the Modern World is a magisterial account of how the two greatest thinkers of the ancient world, Plato and Aristotle, laid the foundations of Western culture—and how their rivalry shaped the essential features of our culture down to the present day. Plato came from a wealthy, connected Athenian family and lived a comfortable upper-class lifestyle until he met an odd little man named Socrates, who showed him a new world of ideas and ideals. Socrates taught Plato that a man must use reason to attain wisdom, and that the life of a lover of wisdom, a philosopher, was the pinnacle of achievement. Plato dedicated himself to living that ideal and went on to create a school, his famed Academy, to teach others the path to enlightenment through contemplation. However, the same Academy that spread Plato's teachings also fostered his greatest rival. Born to a family of Greek physicians, Aristotle had learned early on the value of observation and hands-on experience. Rather than rely on pure contemplation, he insisted that the truest path to knowledge is through empirical discovery and exploration of the world around us. Aristotle, Plato's most brilliant pupil, thus settled on a philosophy very different from his instructor's and launched a rivalry with profound effects on Western culture. The two men disagreed on the fundamental purpose of the philosophy. For Plato, the image of the cave summed up man's destined path, emerging from the darkness of material existence to the light of a higher and more spiritual truth. Aristotle thought otherwise. Instead of rising above mundane reality, he insisted, the philosopher's job is to explain how the real world works, and how we can find our place in it. Aristotle set up a school in Athens to rival Plato's Academy: the Lyceum. The competition that ensued between the two schools, and between Plato and Aristotle, set the world on an intellectual adventure that lasted through the Middle Ages and Renaissance and that still continues today. From Martin Luther (who named Aristotle the third great enemy of true religion, after the devil and the Pope) to Karl Marx (whose utopian views rival Plato's), heroes and villains of history have been inspired and incensed by these two master philosophers—but never outside their influence. Accessible, riveting, and eloquently written, *The Cave and the Light* provides a stunning new perspective on the Western world, certain to open eyes and stir debate. Praise for *The Cave and the Light* “A sweeping intellectual history viewed through two ancient Greek lenses . . . breezy and enthusiastic but resting on a sturdy rock of research.”—Kirkus Reviews “Examining mathematics, politics, theology, and architecture, the book demonstrates the continuing relevance of the ancient world.”—Publishers Weekly “A fabulous way to understand over two millennia of history, all in one book.”—Library Journal “Entertaining and often illuminating.”—The Wall Street Journal

The Cave Painters Gregory Curtis 2008-12-10 The Cave Painters is a vivid introduction to the spectacular cave paintings of France and Spain—the individuals who rediscovered them, theories about their origins, their splendor and mystery. Gregory Curtis makes us see the astonishing sophistication and power of the paintings and tells us what is known about their creators, the Cro-Magnon people of some 40,000 years ago. He takes us through various theories—that the art was part of fertility or hunting rituals, or used for religious purposes, or was clan mythology—examining the ways interpretations have changed over time. Rich in detail, personalities, and history, *The Cave Painters* is above all permeated with awe for those distant humans who developed—perhaps for the first time—both the ability for abstract thought and a profound and beautiful way to express it.
